

Project / Exam Information

Machine Learning for Behavioral Data

April 28, 2026

In-Depth Evaluations

- The school of IC performs an in-depth evaluation of each course
- The in-depth evaluation helps us to get more detailed feedback from you on the course
- Student evaluations are also a criterion for evaluating the professors' teaching
- For MLBD, the in-depth evaluation will take place during the poster session on May 26 (on paper)

Project – Information

- M4/5: April 30, 2026 23:59 CET
- Individual team discussions: May 5, 2026
- Poster Session (M6): May 26, 2026
- Final project (Code + Report) to be delivered by **June 4, 2026 23:59 CET**
 - Detailed guidelines (template and structure of report) will be posted on EdStem

Project – Poster Presentations

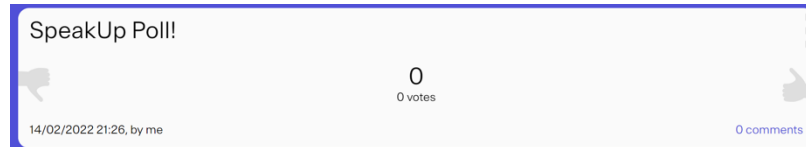

- Poster presentations on May 26 starting at 13:15, location will be posted on EdStem
- Each team will get a presentation slot assigned, we will post the sign-up link on EdStem
- You will have 5-6 minutes to present and 3-4 minutes for questions
- During your slot, all team members should present
- Outside your slot, at least one team member should be at the poster
- There will be a prize by the teaching team as well as one per start-up
- Printing: we will print your poster if sent to us by the deadline (exact date and upload link will be posted on EdStem), expect this to be about 1 week before the poster session

Final Exam - Information

- Conceptual questions only
- Open-book: you can use all materials from the lectures (slides, notebooks) and lab sessions (notebooks + solutions)
- All topics covered in the lecture and lab sessions until (including) April 28
- Thursday June 25, 2026 from 09h15 to 12h15 in AAC 2 31
- 50% of the final grade

Final Exam - Preparation

- Conceptual questions from 2022 and 2023 exams can be found on Moodle (*Exam Information and Preparation*)
- Potential to have a MOCK exam:
 - Yes / No ?
 - Lecture time of May 12 or May 19
